PROFESSIONAL EXPERIENCE

Senior PM, Facebook   2018 - present
- Heading developer platform efforts for Facebook's blockchain project
- Focusing on digital wallet ecosystem, merchant standards, smart contracts, layer 2 solutions

PM II, Microsoft   2017 - 2018
- Defined Microsoft Graph SDK strategy, evangelism and execution plans
- Headed initiatives that led SDK usage to outpace overall Microsoft Graph adoption
- Served advisory role for API design and developer strategy across Office
- Organized and led monthly developer community call for Microsoft Graph

PM, Microsoft   2015 - 2017
- Drove developer experience initiative for a new Microsoft Office application
- Designed UX changes that reduced reliability issues by >80% (Microsoft patent pending)
- Built widely used internal tool for importing and converting unstructured data from Excel

Software Engineer (Intern), Yahoo   2014 - 2014
- Implemented improved video search experience for Yahoo Search iPad app
- Built card-based iOS Notification Center widget for displaying local points of interest

SELECTED PROJECTS

Tapioca - API helpdesk and support platform   2019 - present
- Built a SaaS offering that enables API integrators to debug errors and ask questions
- Wrote a custom parser for OpenAPI 3.0 (Swagger) descriptions to diff against incoming requests
- Beta available at: www.tapioca.help

GraphQL for Microsoft Graph   2017 - present
- Developed a tool enabling developers to call and introspect OData APIs via GraphQL
- Wrote OData description parser, code generator to translate GraphQL query mechanics
- *10,000s* of requests issued against demo tenant, *70+* stars on GitHub, used by *20+* projects

Cardiyo - Social run tracking app   2016 - 2019
- Wrote iOS app enabling users to share running experiences (photos, courses) with others
- Built functionality to analyze activities (pace, splits), pair app with Bluetooth heart rate monitors

Bottle - Local, ephemeral photo sharing app   2014 - 2014
- Developed iOS app for sharing photos with people around you, grew to *1,000s* of photos shared
- Top 500 photography app in Switzerland

SKILLS

Product management
Design and prototyping
Building developer platforms: APIs, Tooling strategy, GraphQL, OData, OpenAPI/Swagger
Generalist software engineering: Full-stack development, iOS engineering

EDUCATION

BS, Applied & Computational Mathematical Sciences, University of Washington   2012 - 2015
- Concentration in discrete math and algorithms
